

ATTENTION ALL DME PROVIDERS

9/15/06

As discussed at the 9/6/06 DME task force meeting, Claims Policy Committee approved the issue of purchase only for nebulizers, walkers, commodes, and canes if Medicaid is the primary payer. If Medicaid is the secondary payer, and the primary will only rent this equipment, Medicaid will also rent.

The NDMA reimbursement for nebulizer's has been researched extensively. An adjustment to the fee schedule has been posted.

As of this date, Medicaid has not received information from the DME providers regarding wheelchair custom seating costs.
